Bridge or Tower		Other Pole	
Property Line or Township Boundary		Utility Substation	
Physical Datum	Physical Datum	Lost Area	
Tactical Feature	Tactical Feature		
Mountain Peak or Hill	Peak		

Where state, county, and/or MCDs/CCDs/subdivision councils, the map shows the boundary symbol for only the highest ranking of these boundaries. Where American Indian reservation and American Indian tribal subdivision boundaries coincide, the map shows only the American Indian reservation boundaries.

Safety names are followed by either three FIPS code or county code (parentheses) indicate county only.

1 "MCD" indicates a false MCD. These are for Census Bureau use only.

2 The CCD and CDP boundaries represent statistical entities only and are not updated through the BAS.

3 Incorporated place name color corresponds to the incorporated place fill color.

4 Geographic features and attributes are displayed directly on the road, so geographic objects and attributes represent the road right-of-way for both in one side of a road and typically extend linearly feet from the road.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The Census Bureau shows primary and alternate road names, but only primary road names are used to label the roads on these maps.

SUBJECT AREA COUNTIES ON MAP SHEET
062,14 Johnson
064,84 Tarrant
